

Respect for Children Policy

Within an early childhood community many different relationships are negotiated with and between children, educators and families. The way in which these relationships are established and maintained, and the way in which they remain visible, impacts on how the early childhood community functions as a whole. Relationships directly affect how children form their own identity, whether or not they feel safe and supported, and ultimately, their sense of belonging.

PURPOSE

The Early Years Learning Framework (EYLF) (DEEWR, 2009) highlights educators' relationships with children as central to supporting their learning. Principle 1 in the EYLF is about secure, respectful and reciprocal relationships.

Our philosophy guides our interactions and relationships with children. We aim to ensure all educators develop positive relationships with children based on respect and fostering children's self-esteem and development.

SCOPE

This policy applies to children, families, staff, management and visitors of the Service.
